Dear Peter:-

Here is the wind up. The retakes on the seven captions, which as you may have noticed begin at page 0. No. 1 is the second picture & page. This is a bit confusing. The original page numbers show in the transparencies, so I hope it will be easy to follow. Then here are the two larger additional drawings, quite delicate ones, and one that had been folded and which has its caption on the back, so I made a transparency of that also.

Enclosed is the revised bill which I trust you will find correct and satisfactory.

I shall look forward to what use you make of these.

Do you wish me to send in the black & white prints of Fort Union and the Santa Fe Trail? I must place them somewhere and I am glad to give you the first chance at them if you wish them.

I hope that all goes well and this brings my best wishes to you and your wife.

Very sincerely
