Dear Jo:-

At long last the prints are in this mail. I hope they will serve to remind you of our lovely country.

I am glad I got a satisfactory shot of San Ildefonso. I only regret the delay. For several days following that near bad accident, I did a lot of goofy things, such as skip a step in color processing, putting solutions in the wr ng bottles etc. But I guess that was better than a bad three car pile up involving eleven people. I have recovered now, and hope I do nothing more that is strange and un accounted for.

Enclosed please find the bill for both the Pueblo and the prints. Ofcourse I know I did all the others as a blanket rate of \$25. which included a good many things already done. Going out there to make just one shot plus time and costs ju t about takes the \$25. (the retake ofcourse was strictly on me). But if this \$50. does not meet with your schedule, just adjust it. It realy is the minimum to go out and make a single shot.

I hope all is going well with the book and I shall look forward to seeing it before too long. In the mean time, the best of wishes,
