Miss Laura Gilpin
Box 1173
Santa Fe, New Mexico

Dear Miss Gilpin:

We are organizing another west-wide picture program for next year. Do you suppose that we might have the privilege of considering the inclusion of one of your beautiful studies of the pueblos of the Indians in this program? We would gladly pay you \$500 each for full rights to any of your pictures which the Selection Committee chooses.

The work of photographers such as Ansel Adams, Duncan Edwards, Ray Atkeson, and many others are already being considered for this program and, no doubt, many of them will be in it. We hope that this time you will be, too.

We will greatly appreciate the opportunity of seeing any beautiful scenic pictures in color, particularly from locations in New Mexico and Texas which you feel might fit in.

Compositions can be either horizontal or vertical. Perhaps the enclosed set of samples from a test program conducted this year in Arizona will give you the best idea of the type and quality of material we are after.

Cordially yours,

Roland Meyer
