

MEMORANDUM

15 April 1961

to: Laura Gilpin

from: William Friedman

This will confirm our telephone conversation last week regarding the photographic blow-up which you will order from Chicago.

The overall length of the enlargement is 72 $\frac{3}{4}$ inches. It is to be mounted on $\frac{1}{2}$ -inch thick Homasote and glued around the edges to the back, and the mount then backed with paper to prevent warpage.
