Mr. Earl Seymour,
350 W. 31st St.
New York 1
N.Y.

Dear Mr. Seymour:-

I hope that my letter and the lens reached you this morning and that I may have the lens back by the end of this week. I think it was the click stop that came loose, but that whole assembly should not have come out so easily.

In your instruction book I see advertised a grip handle with metal cable release. Would you send me one and if I keep it, which I imagine I shall, I will send you a check at once. I also would like to enquire about the direct vision focusing adapter. I will also want a flash cord, as I do not think any of mine will fit. Do you remove the little plate marked "x-2" to insert the flash cord? In the diagram on p 3 of the instruction book No. 18 is marked flash nipple. At this point on my camera is the above mentioned plate.

I have several childrens' portraits waiting to be done so that I will appreciate expediting the completion of this outfit.

Very truly yours,
