Dr. K. Ross Toole,
Museum of New Mexico
Santa Fe, N.M.

Dear Dr. Toole:-

Some several years ago, Mr. Henry Dendahl purchased from me, a series of my Navaho pictures. These he presented to the Dept. of Ethnology at that time under the direction of Dr. Bertha Dutton. At that time I released these to Mr. Dendahl with the understanding that the prints were for exhibition use only, at the Museum. In no way were they to be reproduced. These are all destined for my Navaho book.

When I saw these prints again on display with the current Navaho exhibition, it occurred to me that I should call this to your attention as this transaction took place some time before you came to the Museum.

I have heard that a certain magazine is sending some one to this region for the purpose of obtaining Navaho pictures. I just think that this agreement should be on file with you.

Very sincerely yours,
