Dear Parker:-

Before I left for Yucatan last December, I had all my cameras checked, cleaned and put in perfect repair. The hard use, the humidity etc, made it necessary to send in two cameras after my return. I sent them one at a time and they were kept for a considerable time. I have talked to Jane Watson, Helen Englund and Bibah about this and they have all told me to send the bill in to you. I hate to even suggest another bill on Yucatan to you! Sometime if you wish, I shall be glad to discuss the whole photographic assignment with you.

I hold all the negatives (black & white) which I made. Most of these belong to the Museum. I shall go over all this with Dr. Toole upon his return.

My cameras came back some weeks ago, and I have done nothing about it until now. I would rather take this up directly with you than with Mr. Friedman.

Very sincerely
