Mrs. Laura Gilpin,
409 Camino del Monte Sol,
Santa Fe, New Mexico

Dear Mrs. Gilpin,

During a recent visit to the Museum of Navajo Ceremonial Art I saw your splendid photographs. Three of these are of special interest to me in connection with research on the history and prehistory of medicine in North America. These are: two pictures which show a man in the act of making a sand painting, and a third which is a photograph of the finished (Yehbichai ?) design.

I wonder whether you could make copies of these available to me, together with permission for ultimate publication when my work is sufficiently advanced. I shall be glad to make appropriate reimbursement.

Yours sincerely,

Saul Jarcho
