

Dear Laura:

Here is the list of slides to be made. I can't find my film of the Hopi Screen and the Sicilian Knight--they were used for the Encyclopaedia job, but I'm pretty sure you returned them after making a print of each.

Sallie Voorhees, my cousin in Espanola, will take charge of my mail. Some more photos may come in, and if they do she will bring them to you.

Do you think the little batch of glass slides can be wrapped in cotton or something instead of being sent in the wooden box? And yours can be in a separate packet. Sallie will pack the stuff, and see that it gets off in due course. I should think if it were sent sometime the last week in May or around June 1, that would be fine. It may partly depend upon when she can pack the material.

The man in the State Dept. is Mr. Frederick Colwell, Chief
American Specialists Branch
International Educational Exchange Service
Department of State
Washington, D.C.

The bill, in triplicate, should be sent to him with this statement: "I hereby certify that the above bill is correct and just and payment therefor has not been received." The allotment is \$100.00.

I guess that is about all.

Thanks and good luck to you, and no more gout.

Mayoni
