Dear Laura Gilpin:

We are pleased to advise that you have been nominated to have your biography published in the "Moore's Who is Who in New Mexico", our 1962 "Golden Jubilee" edition.

As you know the "Moore's Who is Who" publications have attained a leading position in the entire field of state-wide reference books. This is not an annual publication. You will recall our last edition was in 1957.

Our 1962 "Golden Jubilee" edition will be much larger, and will meet the same rigid reference work criteria as evidenced by our 1957 edition, which was the only successful state-wide book of its calibre ever edited in our state.

As is signified by the Honorary Advisory Board, the publishers and editors try to select only people of your probity, whose efforts in any phase of the Civic, Social, Benevolent, Religious, Artistic or Business world are worthy of the respect of all the citizens of New Mexico. As one of the representative citizens in your community and state, your biography is necessary to make this 1962 "Golden Jubilee" edition a complete reference book. New Mexico owes its prominence and its fifty year achievements to people of your integrity and standards.

You will find enclosed a biographical data sheet, along with information on how you can obtain a regular or personalized volume. Please be sure to write legibly and give as much personal information as possible, as it is from this information that the editors will compile your biography.

If you were biographed in our last edition, you will find a copy of your biography attached to the data sheet. Please make any necessary corrections and additions on the biographical data sheet, and return copy of biography and data sheet to us.

As the only revenue derived for the printing and expenses of this publication comes from subscriptions, yours will be greatly appreciated, although inclusion of your biography does not obligate you to purchase a volume.

It is imperative that we have all information on or before the deadline date listed on the top of your biographical data sheet.

We know you can appreciate the hard work, time, and expense that is involved in editing a book of this calibre, therefore your immediate co-operation will be greatly appreciated.

Thanking you for your interest and subscription,

Very truly yours,

John M. Moore
