Dear Laura:

I was awfully glad to get your card from Mexico and curiously enough, a few days before I got a letter from Frances Casement who is living in Amazonas 22, Mexico 5 D F (Mexico City I presume) and you may remember her as a child in Colorado Springs. Her Father, Uncle Dan Casement I think was a great friend of Uncle Frank and Father---anyway she has done some interesting work over radio, developing her own programs and you might enjoy meeting her again if you happened to be around where she lives. I renewed contact again with her when I was in Kansas City and got to Manhattan, Kansas where their old home was. I was very fond of Uncle Dan.

Thanks so much for your cordial invitation to see you when we come to Sante Fe and we will certainly do it. I am using your base address as I do not know just how long you will be in Mexico.

Woke up to another hard snow this morning, which makes our fourth in about three weeks and York is not prepared for this kind of a winter so the place is a mess. Your car does one no good as there is no room along the curbs to park and any parking lot is always full-up so we walk or resort to the rather intermittent bus service. You have probably been reading about New York City where transportation has been paralyzed for a week. Too much is enough!

Please pardon my poor typing but having dictated all my life, my hand-writing is impossible and with a little work you can at least figure this out.

sincerely,

A handwritten signature in blue ink, appearing to read "Fullerton", with a horizontal line underneath.
