Dear Laura:

The client has just paid on this account
so I am enclosing the check. *(Normally you'd get this on Aug 15)*

This is the only sale that our records show
on your material and unfortunately, although I am sure
there are a few of your black & whites in the files,
I can't give you an exact listing of them.

We now have a much better control system
and any material you may send in now, it will be much
easier to track down.

Our black & white department formerly did
not keep the same kind of meticulous records that our
color department keeps, on the assumption that a print
is replaceable whereas a transparency isn't.

When you send in the color, would you
be sure to address it to me personally?

Kind regards,

Arthur Brackman
