

OCT. 5,
1962.

Dear Anne:-

Here are the color prints and I hope that they will meet with at least some approval by the family at large. That I did not catch your vivaciousness I am well aware, but I hope this will be satisfactory to live with.

I had hoped to have the print of the mouth of the Rio Grande ready to ship at this time. I have worked it again but did not get a print that quite satisfied me. Air shots can be very difficult, and unless the tones are just right in this one, it loses all its punch. You never asked the price of this and I don't remember that I volunteered it. It is a difficult one to produce, I have only made three prints that suited me, and the price is \$50. If this is more than you want to pay don't hesitate to tell me. I am considering the \$50. you sent me on account the payment for this picture, if you wish it otherwise please adjust the enclosed bill.

It was so nice to see you once more and I do hope that you will come this way again before too long. In the mean time my very best wishes to you both.

P.S. I will rework the river next week, and get it off to you as soon as I can.
