Distillation Products Industries,  
Rochester 3, N.Y.

Dear Sirs:-

Thank you for your reply to my enquiry. Will you please send me 100 g. No.604 Pyrocatechol @ \$3.50. As I do not know the difference ( photographically ) in the two grades, I will try this one first. I enclose my check for \$3.50 plus 25¢ postage which I hope will cover.

For future reference, do you make FERRIC OXALATE? I am one of the few left who still makes occasional hand coated platinum prints. This material must be absolutely fresh. At the present time I do not need it, but I shall at some future time. I only want this now for information. I still have some Potassium Chloroplatinite on hand.

Very truly yours,
