Dear Sandro:-

To corroborate our conversation of yesterday regarding the color photographs of the nacimiento exhibition, I again quote the following prices.

35 mm slides from the Kodacolor negatives which will sell retail at 50¢, wholesale price 30¢ on single slides from each negative.

On the small prints from these negatives uncorrected prints @ 50¢, corrected color @ about \$1. This figure will have to be verified as my catalogue is an old one, but I will write for exact figures.

I regret that you did not project the slides from the Kodacolor negatives. The Foundation has the two sets, one on Kodachrome and one set from the color negative material. This latter set is definitely the better. Between the two sets everything was adequately covered. When I talked to Susan about all these I understood that you would let me know when you would project them so that I could come up and go over them with you. I could then have made it all clearer to you as to the different materials used.

Any order that you wish to place as to slides or prints, I shall be happy to attend to at once.
