Denver, Colorado

Dear Sirs:-

I am considering doing a considerable overhawling of my camera equipment. Would you please let me know what you have or carry in the way of 5x7 view camera equipment. I would want the following information:-

weight
bellows extension
swings
lens board size
4x5 back.
wide angle lens use

Some years ago I purchased a Meridian 4x5 from you. I am still using this, but as I now use hand cameras of a smaller size, I only use the Meridian as a view camera. I want a more atable cmaera on a tripod. I still have some trouble with the Meridian lock nuts for the swing back even though I put in brass bushings. I have seen the Sinar, but it is pretty heavy. I understand that thereare several other makes of s milar character, perhaps one or more are lighter in weight.

Please saad me all the information you can on the above described equipment.

Very truly yours,
