

July 14,
1962.

Dear Nat:-

What a pleasant surprise to pick up the phone and find you on the other end of the line. Ofcourse I am very pleased that you want to use some of the RIO GRANDE pictures to illustrate your talk.

I find that I do not have adequate prints, save one or two, for the making of the slides. But I will have a new set ready for you by the end of next week. On thinking it over, I am sure the best thing to do is to send you a set of good prints and you have the 35mm slides made in Sna Francisco, where I am sure there are competent technicians who can produce these probably cheaper than I. I am already at work on these, and will get them off to you as quickly as possible.

Did you say Salzburg is where your is to be given? Do you or do you not wish any notice of this in the Santa Fe paper? The subject of your talk?

My very best wishes to you both, I was indeed sorry not to see you both again before your return to the coast.

Sincerely
