

Sept. 20
62.

Dear Bill:-

So many thanks for your effort and interest. Yes, I am definitely interested in the University of Michigan Press, judging from the folder you left with me.

I have the dummy here. W.R. sent it back some time ago. I have to have it with me. As I am planning to start off on that last trip sometime within the next two weeks, I wonder if I should send it at this time? I always take it with me and it has opened many a door. As I do not expect to out more than a week or ten days, I could send it immediately thereafter.

I am writing Mr. Gosling to this effect. I can see no reason to write to Ward Ritchie at all at this point, and, as usual will wait to see what turns out.

Is there any chance that we all could meet at Canyon de Chelly? Since you were here, I got an estimate on a badly needed overhaul on my 12 yr old car. This was so staggeringly high that I started looking around. Have ended up with the demonstrator Pontiac Tempset station wagon. A dandy little car, and perfect for my present needs. I am hoping that Miss Forster will be up to going out with me. Do send me your dates, and if you come next week, perhaps we could all go on to deChegy together.

My greetings to your wife, I want to meet her.
