

Dec.7

Dear Mr. & Mrs. Zinn:-

Here are the proofs. A bit uneven in development but any will make good prints. I hope you will find something you like, but to get all of so large a group is difficult. If you are not satisfied we will do some more. But I think in that event I should come up to you for I know Mr. Zinn's time is hard to free. So please call me if you wish me to try some more, though there are one or two that I hope you will like. These are fadable proofs so please examine by subdued light.

Best wishes
