

Dear Laura + Betty

Mamma will probably
never get over the discrepancy
in dates between our marriage
and the arrival of this notice,
but it gives me an opportunity
to tell you how wonderful
'happily ever after' is. I
only wish you could
have been at our marriage
to meet Ethan. Unfortunately,

we're heading in the other
direction from New Mexico -
to Cambridge, England for
two or three years - Ethan
has a research fellowship
there. I think of you
often and hope we can
see you sometime.

all my love,

Barbara
