Dear Miss Gilpin:

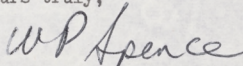

I would like to secure a 5x7 or 8x10 black and white glossy photo of the Acoma Church. I have sketched the view I would like to have.

Also I need a photo of a Monterey style house. A second sketch illustrates this house.

I also need a photo of a row of large masonry arches as were used on early Spanish missions, see sketch attached.

These are to be used to illustrate a textbook I am writing. My check will be sent upon receipt of good photos.

Yours truly,

A handwritten signature in dark ink, appearing to read "W P Spence". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
