Dear Miss Gilpin:

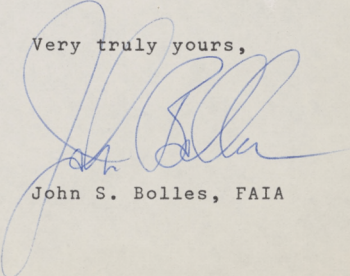

Thank you very much for your telegram. We are proceeding to have the plates made on the basis of the two proofs which we have here. They are excellent proofs and there should be no problem in developing them.

Under separate cover, we are returning to you the other seven proofs, as well as the color transparencies which you sent to us. I want to thank you very much for all of this.

Along with the University of California Press we will be developing a full report on Las Monjas and at that time would appreciate having from you a full set of proofs of the work you have done on this building.

Kindly let me know how much we owe you for the proofs of the two prints of La Iglesia which we are using.

Very truly yours,

John S. Bolles, FAIA
