Mr. John Bolles,  
14 Gold St.,  
San Francisco 11  
California.

Dear Mr. Bolles:-

It is quite a long time since I sent you the proofs and the color slides of the Eglisia at Chichen. I am wondering how you are getting along with your project. I hope you have reached a decision about the color transparencies as I am to show my whole series in a few weeks and I need to get the material to-gether.

I am wondering too, if the new series of books on Architecture of the World has interfered with Norman Carver's book; there seems to be no record of its having been published.

Hoping that you are making progress with your endeavor, I am

Very sincerely
