1963.

Mr. John Bolles,
14 Gold St.,
San Francisco, California

Dear Mr. Bolles:-

Your letter of the 30th came yeaterday. I hasten to write as I am afraid you may have overlooked something in my previous letters; that the prints I sent you were proof prints only and not suitable or correct for reproduction. I will make you adequate prints when you let me know your decision as to which you will use. I certainly would not want Mr. Jennings to think that those prints were to be gued. I can make final prints almost immediately and get thm off to very shortly after I hear from you.

I shall be most interested to see your report on the Eglesia and am gald if I had some material you could use. Did you ever get in touch with Norman Carver?

With best wishes,

Sincerely yours,
