Dear Mr. Cooper:-

Just back from an out of town trip and found your letter with the proof waiting. I wish I could order the 75¢ prints, but I am already committed on price for this job. It is really more important to get a good order on 8x10 prints of the other negatives I made on this order. So go ahead with the machine print order and if possible give as much space as you can on the bottom. Not having seen one of these machine printer, I do not know what kind of negative carrier you have. If you can increase the bottom area by cropping the top of the negative please do so. I must mount these in a folder and deliver by Dec. 10. I hope you can get these done fairly soon. The other order on 8x10s will follow later.
