

January 22,
1963.

Dear Willard:-

Many thanks for your check and the notice of the Encyclopedia. I trust that the reworked article was to your liking and that the new selection of pictures are O.K. I know you are a busy person and I don't expect you to write every one letter so I assume that acceptance means it is O.K. and I await the final use of the material.

I am working full tilt on my long overdue Navaho book. Since I saw you and Barbara I have had to move, buy a house set up another darkroom, earn a living, etc. so the book has moved slowly. However, I am settled down now to finish it, uninterruptedly, I hope.

Perhaps in the spring I will be heading east once more.

In the meantime, my special greetings to you both,
