

F.R.S.
April 12, 1963.

Dear Laura and Betsy,

Today in one of the scientific journals, *Brownie* found a note announcing the death of Irving Huntington last November. We knew nothing of it. Have you by any chance any news of Mary? I know that you were in touch at one time. I have written to her at the old address 115 E. 90th, and so hope it will reach her if she is no longer there. I realize now that we had no word at Christmas, but occasionally that has happened before. It has been a bad winter with too many losses. And I wonder about Mary, who has not been strong for so long. Alas, our years bring their sorrows.

One happy note is that Sally Robinson is still Sally, and plans to arrive here for her grandson Whitney's graduation in early June. She will stay with us and I have no doubt be the belle of the ball. Bart just brought Whit back from vacation, so we had a brief glimpse of him.

Another happy note is that Tony and Herb Newman's daughter Nancy will be married in June, a few days after Pep's graduation from FRS and Nancy's husband's graduation from the Air Force Academy. Wonderful for all of them that Herb is here for Gil G.T.
Love from
Hazel.
