October 8, 1963

Dear Miss Gilpin:

It is quite a long time that we had the pleasure of seeing you -- but we have thought of you often in connection with your various contributions.

I am working now on a project which will have some material also from New Mexico and, looking through Kubler's "Religious Architecture of New Mexico" (1940), I wonder whether I could obtain from you the following two photographs:

Plate 113. Cordova, The Sanctuary. 1937;

Pl... 142. Laguna. The Sanctuary. 1937.

Both pictures are credited to you in the book and this is why I am taking the liberty to turn to you. Naturally we are glad to pay the expenses or your fee. For the time being, I do not know whether the photoes will be included in my book. We have to see how the comparative material accumulates and how many cuts the publisher will allow. Under all circumstances credit will be given your kind cooperation, as in the past.

It would give us great pleasure to have a few lines from you. It is too bad that in the last years we could not pay a visit to Santa Fe of which we are so fond.

My wife joins me in sending kindest regards and all good wishes.

Cordially yours,

Ed Kelemen
