Santa Fe, New Mexico

Dear Laura:

I am sure that Frank Wardlaw has written to you by this time as the last time I talked with him, he was full of enthusiasm about your Navajo volume. I think you should communicate your interest and concern for the possibilities of a German edition to be handled by Hartmann as well as other European possibilities. Frank is in a position to work with European presses and I am sure you will find him a most understanding and amenable person. Our enthusiasm for the way he runs the Texas Press is unbounded and where he has first class material to work with such as yours, I know that he will turn out a fine job. If there is any further way that I can assist, don't hesitate to call on me.

I am glad to know that something valuable in the way of Indian Arts Fund material has turned up. I will be checking in with Betty in the fairly near future as I assume that by this time, her chronology is coming along.

Yours,

Mitchell A. Wilder
