Dear Laura:

Thanks for sending along to me a copy of your June 1 letter to Frank Wardlaw. As I think you probably heard from him in the interim, you know that he is away for some days winding up his responsibilities as president of the Association of American University Presses. When he is rid of this chore, next week I think he will be able to give more time to things at home.

I am glad that you went into detail on your thinking about the European affiliations for the production and distribution of the book. These are the problems which can only be solved between yourself and the University Press and I of course, must stay on the side line although if there is anything I can do to encourage Frank one way or another, I will be only too happy to assist. Actually, he doesn't need much encouragement in this as he is off and running, if I am any judge of his enthusiasm.

I sent a note off to Betty yesterday telling her my itinerary West to California, up to Utah and Idaho and thence homeward. If the schedule will permit, I would like to come down from Utah to New Mexico as it is pretty much on the route. If I can work this out, I will let you know and we will have another meeting in Santa Fe. Fondest to you and the boss.

Yours,

Mitchell A. Wilder
