Miss Laura Gilpin
Box 1173
Santa Fe, New Mexico

Dear Laura:

I have a note from Dr. Gregory Crampton at the University of Utah asking me to check with you about a picture of Navajos in the Navajo Mountain area.

Earlier in October, I had occasion to be in Salt Lake City and talk with the people there about your pictures of the Navajo and our interest in possibly using one of these in the exhibition on Southeastern Utah. While most of your material is, I think, is in Arizona, you mentioned you might have something around the Navajo Mountain area. Do you have any such possible photographs as the summer hogan scenes of the women or something around the trading post but definitely a view that would establish the locale. If so, could you let me see a few samples from which we might make a selection? Also, let me know the fee for the use of the picture in the book as well as the exhibition. Naturally, a credit line will be given in both places.

How is Betty coming along with the IAF show. Sent her a hasty note about three weeks ago but have heard nothing. I hope she is doing well.

Yours,

Mitchell A. Wilder
