

Dec. 1st

Meisel Photochrome Corporation
Dallas, Texas.

Dear Sirs:-

You should have recieved four sheets of Ektacolor 4x5 film to be processed yesterday. On one of these subjects (there were two exposures on each of two subjects) the Church painting, please proceed with making 100 4x5 machine prints.

Herewith are more negatives for proofing. Four 4x5s, & 6 2 $\frac{1}{2}$ x3 $\frac{1}{4}$.

In addition there is enclosed the negative of a previous order of two or three years ago. I cannot find the white envelope. A proof is enclosed which is good as to color. I want two 8x10 prints, best quality, unmounted. Also twenty 4x5 machine prints.

I enclose fifty dollars on account which I believe will nearly cover this order.

The 100 machine prints of the Church painting is the order I need first.

Very truly yours,
