

Dec. 29
1964.

Dear Sammy:-

I am anxiously awaiting the return of the map. I know you are extremely busy these days, and that matters seem to be in crisis at Window Rock. But I do hope you can find just the few minutes it will take to fill in that one missing line on the map. Dave Jones took great pains to trace the other Tribal Park areas and that is the only copy I have. I just must get that final drawing underway. As usual I have been further delayed on my text, as I had to stop to do Christmas work. But my decks are cleared now, and I must push to finish the book within the next three weeks, if possible.

I am following events in the Navaho Times and I do hope that all the troubles can be resolved before too long. I must be very hard on all of you

My very best to you all, and hoping to hear from you soon,

As ever,
