

Jan. 15
1964.

Dear Margaret:-

How nice to hear from you. I sent your letter down to the Lolomas. They have been down in Phoenix with a group of youngsters from the Institute who put on some sort of program for a fund raising affair at the Heard Museum. A great success from all I hear. These kids are fabulous. All they need is material to work with, some place to work, a quiet kind of guidance and ::::: you cant believe the products!

I was at the Institute this morning. I am showing my 1961 Yucatan color slides down there in ten days and one of the youngsters is making me a map. And are they good at this! I saw Mrs. Loloma. In fact I took my pin down to ask advise about cleaning it. She, naturally, admired it and was most interested to learn that it was made specially for me. So as soon as I get it back (she kept it saying they would clean it), I will make you the slides. Yes, I finally got a 35mm camera. I have done lots of slides for the Museum, and I did a whole set of things for my English friend, Caroline Bieber of her Chinese material. I have no students at the moment, and besides I want to do this anyway. It will be nice to photograph, to say nothing of doing it for you.

To change the subject, can you give me the name of a reputable concern who might be interested in the purchase of diamond and pearl pin that I would like to sell. This was let to me by an old friend of my mothers, it is really a beautiful pin, vintage about 1880 or 90. There is new equipment that would mean much more to me than this pin which I very seldom wear. It is too dressy for the likes of me. I have had one estimate on its value, \$800. which may be too high or too low, I dont know. This estimate came from Albuquerque but I would like some place in the East to see it. que I dont want to bother you with something like this, but

as it is in your like, I am sure you will know to whom I should send it.

In the mean time, I will make your slide as soon as I get my pin back. I like doing things like this.

My best wishes to you both. We must get all caught up again soon, and I wish I could see what you are working on now.

Always affectionately
