Dear Mr. Young:-

The map has just come from Keams Canyon, and before I have my new map drawn, I want to be certain about this. The large rectangel is marked with red pencil and marked HOPI-NAVAHO. Within this area is an area all about the Hopi Villages marked in green. Is this Hopi-Navaho area roughly what I had on my old map? How is this joint area to finction? How do the Hopi feel about this? When was this law passed? Did I see some reference to it in a recent news item from Window Rock?

I seem to have a great many questions.

Then, here are the Navaho names for the sacred mountains as spelled for me by Herbert Blatchford. These must also be correct on my new map. Do I use these this way or is there a more anglisized spelling? AstTHE authority on Navaho language I naturally turn to you. Sorry if I am a bother and I am sure I will have more questions later.

With many thanks
