Dear Miss Gilpin:

It was so pleasant finding you again in Santa Fe and in your studio of such superb photography. I can't wait for the Navajo book to be available!

Unless you have already written to Sjeff's school director, of meeting with Sjeff, is it asking too much that you do so, or a letter to him to present to his school when he returns?

It will help him so much in proving his efforts to meet, while in this country, as many as he ~~co~~ could of the most prominent photographers.

He has been a prodigious worker on this recent trip, averaging about 85 pictures a day and at night, in Motel showers, or bathroom, as his "dark room", developing the rolls of films to see the results of each day. The plates and color of course had to wait until getting home.

And now he is having the climax of his American experience, in color and advertising with Milton Halbstadt in San Francisco, a contact Ansel Adams gave him. He returns to Breeda Nov. 20.

Again thank you for the pleasant interlude of meeting you.

Sincerely,
Edith Jamieson
