Dear Miss Gilpin:

We received your letter this morning. We were glad to hear from you since it has been quite sometime.

There are still a few mines operating. The ruin I believe you are thinking about is the one you and my family went near one Sunday and you took some pictures from quite a distance away. This is a large ruin and I have been down in it, of course, that has been about ten years ago. It is very difficult to get to the ruin as it is across a canyon and a long walk. I went down on a rope then walked across the canyon and climbed up a wall to the ruin.

I will try to find someone to help direct Mr. Weyer but if not, I am here at ~~at~~ the store most of the time and will help him all I can.

My wife and I are looking forward to your book as we have often spoke of you and Miss Fester. Hope you can get over this summer.

If you come through Farmington, stop and call on us as we would enjoy visiting with you.

Sincerely yours,

Troy Kennedy
