Dear Laura:

Perhaps you have misplaced the slip of paper I gave you with my address on it. So - I am sending this note just in case.

On Oct. 12th my doctor opens her new clinic, a gem of a little building. Some of her friends are giving her a "house" warming. I want to present her with the photograph I ordered from you. Do you think you can get it to me by then? I hope so.

Remember, it is the woman with baby in one arm and two lambs in the other. I loved it and have looked forward to owning it but I will enjoy giving it to my doctor who has been so kind to me.

I hope all goes well with you
and Betsey.

My love to you both & thanks.

Ellie Byrne
