Santa Fe, New Mexico

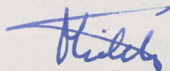

Dear Laura:

Many thanks for the pictures which arrived safely and promptly. I am certain that we can use several from this group. I am more drawn to the black and whites than the color. I wonder if I am losing my enthusiasm for color pictures in my old age! Fact is, I have just seen too many red sandstone - blue sky pictures during the past two trips to Utah.

I have now changed my schedule as I must go to Wichita on March 5th for a lecture. I expect to fly out direct from Wichita to New Mexico and will let you know my schedule a bit later. I would say we should definitely plan to get together on Monday or Tuesday, March 9 or 10th. Will also try to have a firm decision on the photographs by that time and will return the prints to you.

All the best.

Sincerely,

Mitchell A. Wilder
