Dear Miss Gilpin:

We are now in the process of producing a monograph similar to "La Iglesia" but based on the Casa Colorada, Casa Venado, and Akab-Dzib. You may recall these as the two buildings west of the Observatory, just off of the road from the Nunnery to the Ball Court; and the long low building on the trail from the hacienda to the Nunnery.

If you have photos of these we would appreciate proofs from which we can order glossy prints when the time and need arises. We will, of course, pay you for the proofs and the prints.

My records are not clear, but I hope you were reimbursed for the last proofs and prints and that you received copies of the monograph on "La Iglesia". If not, please let me know.

Sincerely,

John S. Bolles, FAIA
