

August 11,
1965.

Mr. Alexander L. Crosby,
Box 20, Roural Route 4
Quakertown, Penna.

Dear Mr. Crosby:-

Thank you very much for your letter of August 3rd. Yessindeed, I remember telephone call. I have in my file, ofcourse, all the negatvies I used in my RIO GRANDE, but also many others that were not used. One always makes a number of such for all major subjects, and in addition I did much work that for lack of space could not be used.

I have not yet heard from your publisher, and if Im do I shall let you know at once. I could make proof prints of what ever material you would want, but if you could give me an idea of what to select, it would facilitate matters a great deal.

Just where is Quakertown in relation to Philadelphia? I went to school in Bryn mawr, and aside from that many of my ancestors came from Penna., and I have an interest always in that part of the U.S. While my father & grandfather were Baltimoreans, the first territorial Governor of Colorado, (my native state) was from the Penna. branch of the family.

I am hoping that the end of next week will see the finish of my Navaho book. I have been working hard on it all summer. It must go in very soon

It was nice to hear from you, and I hope that your publisher will want some of my picures.

Sincerely yours,
