Dear Sirs:-

A few weeks ago, I was in your plant to purchase some materials for making some portfolios. At that time you kindly gave me an album as a sample. I have an order one. I notice that this one is expandable. I shall need thirty pages rather than the fifteen contained in this one. Either you can make me an other and I shall keep this as a sample for further jobs, or get additional pages for this one. Do you have this same paper in a lighter weight? In many ways I like this heavy stock but perhaps twine the page content may make it too heavy.

I will appreciate suggestions from you at your convenience,

Very truly yours,
