Dear Margaret:-

At long last here are all your prints and transparencies. I am so sorry that I have been so long, but I have been laid up again and I am just SLOW. I guess this can hit suddenly after one reaches a certain age.

I had my difficulties with the slides. I waited and waited for the right sized film and never have gotten it. So I used 4 x 5 to cut down to size. Then when I started I forgot about the reduction on the cross, so I am sending you an extra 4x5 transparency which I did without thinking.

Then I muffed it on the Garden Party. I must have forgotten to stop my lens down. I was on the point of writing to confess my sins when I heard that the Hoyt's had bought it. Then I had to wait to find a convenient week end when they would be out at their ranch as that is where they have it. So at last I got out there. Then I seem hoodooed with this one. The film I used must have been out of date for the transparency is too yellow, which usually happens under these circumstances. I have corrected it as much as I could with a blue filter bound in with the transparency. If it does not suit you, I can do it again sometime during the summer. I hope all the others will meet your approval.

This brings my very best to you both. I hope it will not be too long before you are back here.

Affectionately

P.S. I have a very entrancing Poodle pup.
