ANASTASIA VAN BURKALOW,
CHAIRMAN
NATIONAL FELLOWSHIP COMMITTEE

Dear Laura: -

How are things going for you? I hope you and Betsy had a good Christmas. We have set the date for the Annual Dinner of the Society of Woman Geographers for Thursday April 8th. Would there be any chance that you could give the talk for the dinner & show some of your Navajo slides? The Society could contribute something towards transportation costs.

I suppose it's late in the year now to set up other dates for you that would keep pay expenses. The S.W.G. has connections with the Museum of Natural History & could perhaps pull strings there. The person now in charge of programs at Miss Porter's

school at Farmington, Connecticut is a friend & mine. Maybe you would prefer to aim for next year. In any case we do want to have you very much if you can see your way clear with your obligations.

I have been in the hospital over Christmas & New Years. They turned up a stomach ulcer which is already almost well, but an intestinal problem remains which they are watching & I hope I don't have to have an operation, all in convenient! In case I am laid up, you better reply to my Program Chairman, Reba Forbes Moree (Mrs Howard M. Moree). See address on Saturday.

This carries much love to you & Betty & I hope the new year brings you rich blessings
Affectionately

Lida

P.S. I do hope your book is coming along well. & that this finds you well.
