The Color Corporation of America
Tampa, Florida.

Dear Sirs:-

On the recent order I sent in to you, one part came yesterday, your lab. order No. 37373. These were the prints with the original transparencies enclosed. BUT the order which should have preceeded this has not yet come. This is your lab order No. 37372. This you have marked on your invoice Rush, to arrive by 4/28/66. I am greatly concerned about this as I have yet to make prints from these black & white negatives from 2 color transparencies. This is for a special brochure for the Department of Interior.

Will you please check your shipemnts and find out when it was shipped.

Very truly yours,
