Dear Anne Dietz:-

Many thanks for your note, the list and the offer. There are one or two things I do not want to let go for so little. i.e. the Mesa Verde booklets. I would like to keep four of them. They are useful occasionally as advertising or for a small gift. You keep four. If I remember correctly, they sold originally for \$2.50. Then I definitely do not want to sell the D.O.Hills. Sorry. They belong on my Camera Works, and I want to keep those in tact. All the rest are yours. Just send me a check for what ever they come to. Have just remembered one thing. There is one copy of the Royal Photographic Journal that has an article on Julia Margaret Cameron. It is titled "Anals of my Glass House.". I do want to keep that. I thought I had brought it over to the house. I may yet find it, but again it might have gotten back with the volumes you took. And I have found all the rest in a box. If you find any interest, I can bring them down sometime before too long.

Thanks a million, and good luck with everything.

I think I have some unmounted photogravures. Which were missing in the portfolio?
