Chicago 5, Ill.

Dear Mr. Hoffman:-

Enclosed please find one 8x10 negative and a sample print for an enlargement similar to that you did for this same customer last year. The Institute of American Indian Art. This is the 1965 class. They want a similar enlargement to match the first. 52"x72". You may have to crop slightly to fit this dimension. The sky needs extra printing, a little darker than this sample print.

Please send this unmounted as I have located someone here who can mount it for me. The cost of shipping from Chicago is very high, and we can mount here. Send the print to me at my address and bill me for same.

Very truly yours,
