

12 February 1966  
2110 Granada Temple

Dear Miss Gilpin,

Have received late, mail which came to my Window Rock address during the month of January. I send my sincere thanks and appreciation for the lovely set of books. It was something I needed and wanted. Presently, I am in the process of taking a Prehistory course and they have already come in handy.

This semester appears to be very busy with courses in Primatology, Seminar in Culture Change, Physical Anthro, Prehistory and a course in Comparative Social Structures. It's all very interesting and challenging. If all goes well my classwork will be completed this semester, then next fall semester for my thesis.

The weather is getting warmer but we still have the rains which I hope will stop soon.

Sammy is coming along fine although he's back in council and committee meetings again. We hope to come up to Santa Fe over Easter vacation. Will let you know. There is one thing, since Sammie's accident, he does not recall all our friends but I have told him about your friendship so - just a note here. Otherwise, the doctors say physically he's progressing much better than expected.

Again thank you. How is Miss Forster? Do drop a note when you have time.

Sincerely  
Shirley Sells
