Dear Miss Gilpin:

Yesterday, during a regular meeting, the Executive Committee of the School was presented with your Bill of Sale dated March 22, 1966, conveying to the School of American Research your collection of ethnological materials accessioned during 1965. The list attached thereto showed a total of 137 items valued at \$2,125.60.

I have been instructed by the Executive Committee to formally acknowledge this transfer to the School and at the same time to express its appreciation and its admiration of this evidence of diligence in the Indian Arts Fund during 1965. The Committee recognizes that this conveyance is a routine procedure under the terms of our merger but wishes to record its formal recognition of these efforts on the part of your entire organization.

Sincerely yours,

Carrington Woolley
