

The Eastman Kodak Soters Inc.
Denver, Colorado.

Dear Sirs:-

Some little time ago you informed me that a new publication on making duplicate negatives, and copying, would soon be issued. I hope that this is now available. Will you please send me this, and also I want all the information about making internegatives, color corrected ones, from color transparencies. The laboratories seem to have a high charge for this work. It must be painstaking but I should like to try my hand at it. Also I want the latest publication on making pan matrices from color negatives and the production of dye transfer prints by this method. I have long intended to do this. I have a suction board, etc. but so long a time has gone by that I feel sure that there must be new instructions or new equipment. If you do not have these please order the publications for me.

Will you also please send me the following:-

1	-	100	sheet	box	Polycontrast	D.W. F.	8x10
1	"	"	"	"	"	S.W. F.	8x10
1	"	"	"	"	"	S.W. F.	5x7
1	"	"	"	"	Opal V	D.W.Q	8x10
